May 31st, 2020 - My research covers three major areas: language comprehension, memory, and social cognition. My comprehension research examines how the social or pragmatic aspects of language contribute to coherence and inference processes, especially in neuropsychological populations showing communicative deficits.

Discourse markers of Alzheimer's disease versus normal

Example research critical discourse analysis essay 9526
May 26th, 2020 - Critical discourse analysis. Social communication is increasingly being a subject of scientists' discussions from different disciplines as well as ordinary language users in contemporary social sciences. Especially in linguistics, we see a clear shift to discourse discourse allows us to talk about use of the language as well as the language as a socio-cultural activity.

Remote interpreting assessment of human factors and PE
June 2nd, 2020 - The author has argued elsewhere (Moser Mercer, 2002) that inference generation and the construction of situation models were crucial to discourse comprehension. We might.

The model coupled with discourse analysis of text relations was able to account for online comprehension as measured by reading time or fit judgments. While these implementations have been used successfully to test theories of retrieval from long-term memory and various theories of mental representation and anization within a construction-integration framework, they do not fully...

Integrating word processing with text comprehension
June 3rd, 2020 - 2015 close but no garlic perceptuomotor and event knowledge activation during language comprehension. Journal of memory and language 82 118-132. Written language comprehension in younger and older adults.

May 4th, 2020 - This study examined the effects of text genre and repeated reading on written language comprehension in younger (M = 21 years) and older (M = 72 years) healthy adults. N = 54 participants verified four text-based statements: explicit, implicit, contradictory, and elaborated after reading expository, narrative, and procedural texts.
